FATHIMA ISHA NAWAZ

Dubai, United Arab Emirates | +971 56 664 2348 | ishanawaz2410@gmail.com | linkedin.com/in/isha-nawaz

PROFESSIONAL SUMMARY

Information Systems and Business Analytics graduate from the American University of Sharjah with experience at Emirates Group, Apparel Group and GITCO. Skilled in Python, Excel (Power Query, Pivot Tables), Power BI and Tableau, with experience analysing large datasets, building KPI dashboards and presenting clear insights to stakeholders. Built AI-driven tools at Emirates that cut analysis turnaround from 7 days to 3 minutes.

CORE COMPETENCIES

Data Analysis & Visualisation · SQL · KPI Dashboards & Reporting · Data Cleansing & Quality · Requirements Gathering · Process Improvement · Stakeholder Management · Forecasting · AI & Automation

EDUCATION

BSc Business Administration – Information Systems and Business Analytics Jan 2022 – Dec 2025
American University of Sharjah (AUS), UAE · CGPA 3.36 / 4.00 · Dean's List · Merit Scholarship

WORK EXPERIENCE

Data Science & AI Intern | Emirates Group, Dubai, UAE Jan 2026 – Jul 2026

- Built two end-to-end agentic AI systems in Dataiku: an OAG Competitive Intelligence Agent (processing 595K+ rows to detect route entrants, capacity surges and market share shifts across EK's network) and a Route Review Agent (ingesting Power, MIDT, CBI and fares data), generating LLM-driven narrative analysis and branded PowerPoint reports that reduced analyst turnaround from 7 days to 3 minutes.
- Cleansed and analysed Emirates ticketing data using Python (Pandas, NumPy) and Excel Pivot Tables across booking channels (EOL, Online, Trade), coupon usage and flight distance segments to understand customer booking behaviour and surface actionable revenue insights.
- Led a cross-functional ideation session with the Data Science and Route Planning teams, translating four business pain points (manual analytics, data silos, reactive monitoring, data trust) into a structured AI agent roadmap.
- Resolved a critical ServiceNow workflow bottleneck while onboarding 120+ cost centres onto Sally, an internal AI platform, collaborating with IT to consolidate multiple requests into one streamlined flow.

E-Commerce Intern | Apparel Group, UAE Jun 2025 – Aug 2025

- Performed segmentation of SKU-level sales data using Excel Pivot Tables to identify top-performing products, driving targeted pricing and inventory decisions.
- Managed product listings and pricing strategy on Trendyol; designed marketing assets that increased social media engagement by 25%.

Marketing Executive | GITCO, Saudi Arabia Jun 2024 – Jul 2024

- Analysed product performance and customer preference data in Excel, improving targeted campaign effectiveness by 15%.
- Prepared financial reports and managed inter-division fund transfers for procurement operations.

Research Analyst | Mental Health AE, UAE Dec 2023 – Jan 2024

- Benchmarked global youth mental health programmes to identify best practices and gaps for the organisation's strategy.

TECHNICAL PROJECTS

- **CV Fit – AI CV-to-Job Matcher (JavaScript, LLM API, GitHub, Vercel):** Built and deployed a live web app (cv-fit-theta.vercel.app) that compares a CV against any job posting, combining instant keyword-coverage scoring with an AI-generated fit score, requirement-by-requirement gap analysis, tailored bullet rewrites and one-click export of a tailored CV to Word.
- **Sustainability Database Redesign (MySQL):** Designed a normalised 13-entity database with triggers, stored procedures and 10+ SQL queries to maintain data integrity and support budget and project reporting.
- **Swiggy Performance Analysis (Excel, Power BI, Tableau):** Analysed a 300,000+ row, 4-table dataset with Power Query and Excel Pivot Tables; applied descriptive, diagnostic, predictive (seasonality forecast) and prescriptive analysis, including Goal Seek planning toward an INR 100M revenue target.
- **Aviation Performance Dashboards (Power BI):** Built two interactive dashboards using DAX (CALCULATE, time intelligence, RANKX, YoY variance) to track operational performance and route trends.

TECHNICAL SKILLS

Microsoft Office:	Excel (Pivot Tables, Power Query, formulas) · PowerPoint · Word
Data & BI:	SQL / MySQL · Power BI · Tableau · Data Cleansing
Statistics & Analytics:	Descriptive and diagnostic analysis · Forecasting · Scikit-learn · R Studio
Programming & AI:	Python (Pandas, NumPy, Matplotlib, Seaborn) · Dataiku · LangGraph · LLM APIs · RAG · Jupyter Notebook · Microsoft Foundry · GitHub · Vercel
Languages:	English (Fluent) · Malayalam (Fluent) · Hindi

LEADERSHIP & EXTRACURRICULAR

- **Business Analytics Association, AUS:** Treasurer (Aug – Dec 2025); PR Manager (Jan – May 2025)
- **Startup SBA, AUS:** Executive Assistant (Oct 2024 – May 2025); Executive Director (Aug 2023 – May 2024)
- **Entrepreneurship Club, AUS:** Operations Team (Jan – May 2025)
- **AUS Model United Nations:** Logistics Coordinator (Aug 2023 – Feb 2024)
